

BOARD 32 EXECUTIVE COMMITTEE MEETING, DECEMBER 11, 2011

It was voted at this meeting to designate the official Referee's Uniform Shirt for New Hampshire board 32 and all New Hampshire District Boards 117, 118, 122 and 128 as follows:

The required and official shirt shall be the traditional black & white striped shirt, where all stripes are uniform in width with the authorized IAABO patch (red/black/white) on the left chest area and the American Flag centered on the back just below the neck seam.

All officials MUST have this shirt.

The Board further designated two additional shirts for alternate and limited use provided that all members of the officiating crew wear the same color/style shirt:

1. *The gray striped shirt with the authorized IAABO logo patch on the left chest area and the American Flag centered on the back just below the neck seam.*

This shirt may be worn in any regular season NH High School game provided that both officials are wearing this color/style shirt. This shirt is NOT allowed at any NH High School tournament level game.

2. *The newer Black & White striped shirt, where all stripes are uniform in width except a wider black stripe (or panel) on each side of the shirt along the seam under each arm with the authorized IAABO Patch (red/black/white) on the left chest area and the American Flag centered on the back just below the neck seam.*

*This shirt may be worn in any regular season NH High School game provided that both officials are wearing this color/style shirt. This shirt may also be worn in any NH High School tournament level game, again, provided all officials in the crew working the game wear the same color/style shirt. This shirt IS different than the **required and official shirt** described above and may NOT be worn together by different members of the same crew in the same game.*
