**Interpretation of Excessive Bleeding:**

National Federation Rules call for a player, who is bleeding, has an open wound or excessive blood on the uniform, to leave the court/field. The NHIAA interprets "excessive blood on the uniform" to mean that part of the uniform is saturated with blood. Saturated does not mean a wet spot. Saturated means a major portion of the garment is covered and soaked with blood. For this to occur, significant bleeding would have had to take place. For any blood on uniform less than "saturated", the uniform does not have to be changed. School personnel have the responsibility of treating the blood area with the appropriate disinfecting solution before the athlete may participate. If the uniform is "saturated" with blood, the uniform must be changed before the athlete may participate. This interpretation is to be followed in the conduct of all NHIAA athletic events.

**24. NHIAA SITE SELECTION CRITERIA POLICY:**

NHIAA Sports Committees will make every effort to provide sites with the following criteria in mind.

The criteria are not listed in order of priority.

- B. Health and safety of participants.
- C. Comfort and safety of spectators (including adequate seating and parking, and restrooms).
- D. Handicapped accessible for spectators.
- E. Relative travel requirements of participating schools.
- F. The ability to sell, collect and account for ticket sales.
  - The home of the higher seed's principal or designee will be in contact with the visiting school to reach an agreeable number of tickets to be reserved for each game.
- G. Playing surfaces must meet the requirements as established for that sport.
